EDUCATION

The University of Texas at Arlington | Arlington, TX
Bachelor of Science in Information Systems

Dec 2026

EXPERIENCE

NAFS TECHNOLOGIES LLC | Arlington, TX

May 2026 – Present

Product Designer

- Led end-to-end product design for Nafs, an iOS Islamic wellness app, spanning user research, wireframing, and high-fidelity Figma prototypes across 8+ features including prayer tracking, Quran reflections, dhikr counter, and a fiqh-guided cycle tracker.
- Conducted user interviews and usability testing with Muslim users to translate cultural and spiritual context into intuitive mobile user flows that balanced religious sensitivity with modern UX conventions.
- Bridged design and engineering by developing frontend screens in React Native and HTML/CSS, ensuring pixel-accurate implementation of Figma mockups across iOS devices.
- Built a unified visual design language including typography, dark/light mode theming, and a Figma component library that brought consistency and a calm, intentional feel across the full app.

ARC DESIGN AGENCY | Arlington, TX

Jun 2024 – Present

Founding Designer

- Established the agency's design practice from the ground up, owning UX strategy and delivery across small business clients in digital transformation engagements.
- Designed end-to-end user journeys and wireframes that resolved key onboarding and adoption friction points for clients, reducing drop-off by 25%.
- Translated complex client data into stakeholder-facing dashboards and infographic systems in Figma and Adobe tools, accelerating decision-making speed by 30% and improving report accuracy by 40%.

GROUNDEDTALKS | Irving, TX

Oct 2023 – Jun 2024

Design Lead

- Designed and developed a responsive website in HTML and CSS, improving cross-platform accessibility and driving a 200% increase in mobile traffic.
- Designed 30+ data-driven graphics for LinkedIn and Instagram that visualized complex discussion themes, increasing audience engagement by 40%.

PROJECTS & ACCOMPLISHMENTS

UTA Muslim Student Association Website | Arlington, TX

Aug 2025 – Present

Co-Developer

- Co-developed and led UI design for a website serving 500+ students, building a donations module and RSVP system that processed 100+ registrations per event and consolidated previously fragmented platforms.
- Architected an intuitive membership portal and digital resource hub that improved site navigation and drove a 300% increase in successful new member onboarding.
